

I support XM and Sirius Satellite Radio's efforts to bring new services and technology to the American public, including traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. Competition and choice benefit consumers. This is a question of consumer choice and the freedoms protected by the First Amendment. Thus, I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM and Sirius's ability to provide the kind of programming that consumers demand, deserve, and are willing to pay for.
